Our logo is the key element of our identity. The signature is the combination of the word SALTO, and a dot upon a letter "T" (which symbolizes a person successfully landing on their feet after skilled performance).

**Please note:**

Never change the proportions of the logo vertically or horizontally, or alter the appearance in any way.

Wherever the logo is used, it is recommended that it be surrounded with clear space to ensure optimal visibility. No graphic elements of any kind should invade this zone.

## LOGO MINIMUM SIZE

For the sake of visibility, the width of the logo must not be wider than 10 mm, or 80 pixels.

## PRIMARY COLOURS

Recommended to use in most cases.

---

## SECONDARY COLOURS

Used occasionally – depending on needs or on the tone of communication.

## PRIMARY COLOURS

### Colour psychology

### When to use

**Blue** is associated with trustworthiness and reliability.

**Blue** is recommended for use in most open SALTO communications. Use it when the tone of voice needs to express loyalty, strength, wisdom and trust.

**Yellow** is optimistic, playful, and happy. It can also be associated with mental clarity and intellect.

**Yellow** is used in the dot of the SALTO logo and in corporate graphics dots. Do not use yellow as a background colour or in any other way.

## SECONDARY COLOURS

### Colour psychology

### When to use

**Magenta** is known as a colour of harmony and balance.

**Magenta** is best used in communication to encourage compassion, to bring a bolder tone to social events, and for communication.

**Teal** represents open communication and clarity of thought.

**Teal** is best used in calm, more sophisticated/elegant communication. Use it in lower and less emotional tones of communication.

**Orange** is thought to be uplifting, to encourage socializing, and to inspire productivity.

**Orange** is best used in situations where the wish is to capture attention, or in communication, in order to convey a sense of fun and energy.

Gray: C0 / M0 / Y0 / K50

The corporate pattern supporting the logo is a combination of:

**a dot**

**an outlined circle**

**an outlined semicircle**

The outlined circle and the outlined semicircle represent people, and the dots represent SALTO Research Centres.

The combination of these elements allows for the creation of suitable dynamic patterns for different formats and compositions.

**Please note:**  
The proportions between graphic elements must remain as shown in the scheme.

**Extras**

If the corporate pattern needs some additional playfulness going forward, there is an opportunity to develop the pattern further by redesigning some elements. Redesigned elements must follow the grid shown upon the scheme.

**For example**

For a festive event.

**People:**

The focus is on a person and their emotions. Emotions can vary from calm friendliness to mild expressions.

**Background:**

To focus more on a person or people, please use a background that is a single color, with a clear tone. This can also be used when the surrounding environment is out of focus or blurred.

**Light:**

Natural white light, soft shadows.

**People:**  
The focus should be on a person and their genuine emotion.

**Background:**  
The surrounding environment should be out of focus or blurred.

**Light:**  
Natural with a warm undertone.

**Please note:**

Between all combinations there must remain enough strong contrast between the corporate graphics (logo and pattern) and the background (a photo or illustrated graphics).

**The colour of the pattern shape** is comprised of SALTO logo colours which are being used at this time. Do not use any other colours besides the corporate colours.

**Please note:**

Between all combinations there must remain enough strong contrast between the corporate graphics (logo and pattern) and the background (a photo or illustrated graphics).

**The colour of the pattern shape** is comprised of SALTO logo colours which are being used at this time. Do not use any other colours besides the corporate colours.

If the background photo/graphics is too detailed or noisy, please use the SALTO logo with the background. The logo with the background must be placed like a label (attached to the edge of the format from one side).

**Please note:**

Between all combinations there must remain enough strong contrast between corporate graphics (logo and pattern) and the background (a photo or illustrated graphics).

**The colour of the pattern shape** is comprised of SALTO logo colours which are being used at this time. Do not use any other colours besides the corporate colours.

In most cases, it is recommended to use the vertical version of the logo (more compact).

**Please note:**

The colour of the Resource Centre is always the same colour as SALTO.  
For example: when using the teal logo, then the Resource Centre colour is also teal.  
No typography except corporate typography is allowed.

When it is not possible to use the vertical logo version for any reason (for example when printing the logo manually), then use the horizontal logo version.

**Please note:**

The colour of the Resource Centre is always the same colour as SALTO.  
For example: when using the teal logo, then the Resource Centre colour is also teal.  
No typography except corporate typography is allowed.

To ensure the visibility of the SALTO logo on larger formats, the other logos must be placed separate from the SALTO logo. To ensure the visibility of other logos please use a white background.

Do not place the other logos on the corporate pattern.

If there are lot of other logos then place them away from the main visual.

To ensure the visibility of the SALTO logo on larger formats, the other logos must be placed separately from the SALTO logo. To ensure the visibility of other logos please use a white background.

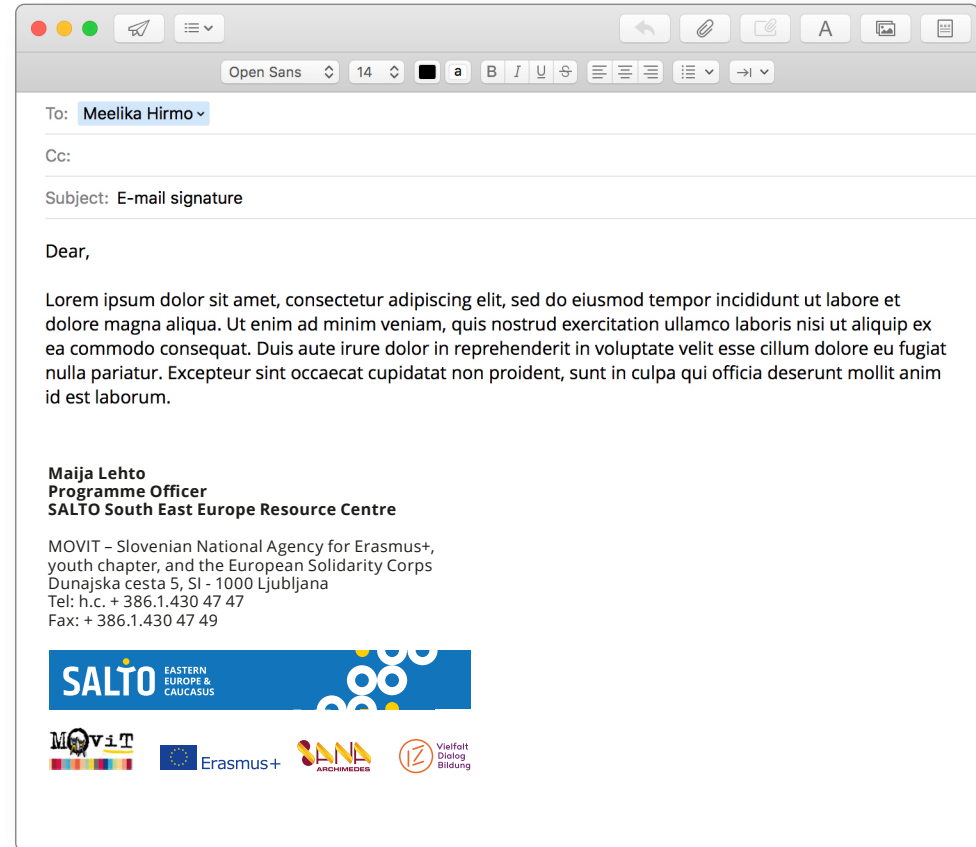

Do not place the other logos on the corporate pattern.

If the format space is limited then place the other logos under the SALTO logo and at a smaller size than the SALTO logo.

Placing the other logo(s) please note the clear space.

**E-mail signature example**

To ensure the optimal visibility of the SALTO logo, please use the SALTO logo with a branding ribbon.

**Slogan element shape**

Depending on the length of the slogan, the shape of the slogan element may vary. To ensure the creation of a suitable slogan element, please follow the scheme. No typography except corporate typography is allowed.

Depending on the composition of the background, the slogan element can be located in any place (except not under or on top of the graphic pattern or the SALTO logo). The size of the slogan element is not defined.

**Exception**

To add more playfulness, it is permitted to place the name of the Resource Centre inside the slogan shape. In this case, it should be positioned not far from SALTO logo. The slogan should be placed as a simple headline text.

**Do not**

use two or more slogan shapes (a slogan and the name of the Resource Centre together).

**The colour of the slogan shape** is a combination of the SALTO logo colours which are being used at this time. Do not use any other colours besides the corporate colours.

**Open Sans** is a humanist sans-serif typeface designed by Steve Matteson and commissioned by Google. Featuring wide apertures on many letters and a large x-height (tall lower-case letters), the typeface is highly legible on screen and at small sizes. It belongs to the humanist genre of sans-serif typefaces.

The character repertoire contains 897 glyphs, covering the Latin, Greek and Cyrillic alphabets with a wide range of diacritics.
